MO71 GUI Administrator

MO71 is a Windows based graphical administrator for WebSphere MQ.

The administrator provides a wealth of configuration and monitoring capabilities.

Features include:

- MQ Object Configuration and Display
- Multi-Queue Manager objects in a single display
- Flexible and extensive object filtering
- MQ Event monitoring
- Web Browser Object View
- Improved wildcard handling
- MQSC Interface
- Queue Load/Unload capability
- Network topology display
- Object definition export
- Message browsing, display and formatting
- Message copy, delete and forwarding
- Object search and verification
- Queue Manager monitoring
- Object and status monitoring
- Object and status graphing
- MQI API Exerciser
- Predefined dialog views and groups
- Auto Dialog refresh
- Highlight object differences from default definition
- Single console monitor view
- Ability to simplify user front-end for different use patterns
- Extensive look-and-feel configuration capability
- Compare definitions between two Queue Managers and synchronise
- Single .EXE install (around 2MB), you can run it from a USB stick
- and more.....

MO71 runs on Windows but can connect, via the MQ client, and administer all versions of WebSphere MQ which are in support. In particular this includes the z/OS platform including Queue Sharing Group (QSG) installations.

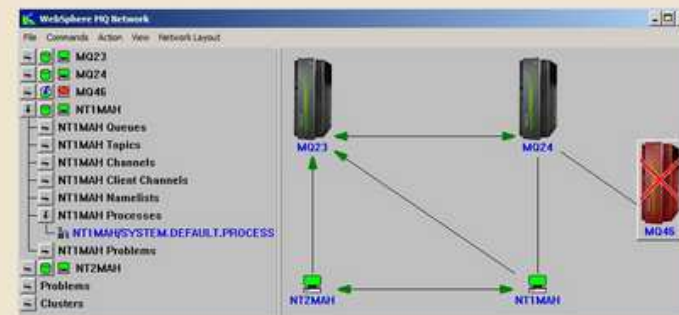

For more information about the program and its features why not [download](#) the user guide.

NTPGC1 Multi QMgr Queue List

Last Refresh on Sat - 02 Jul 2011 (21:45:14)

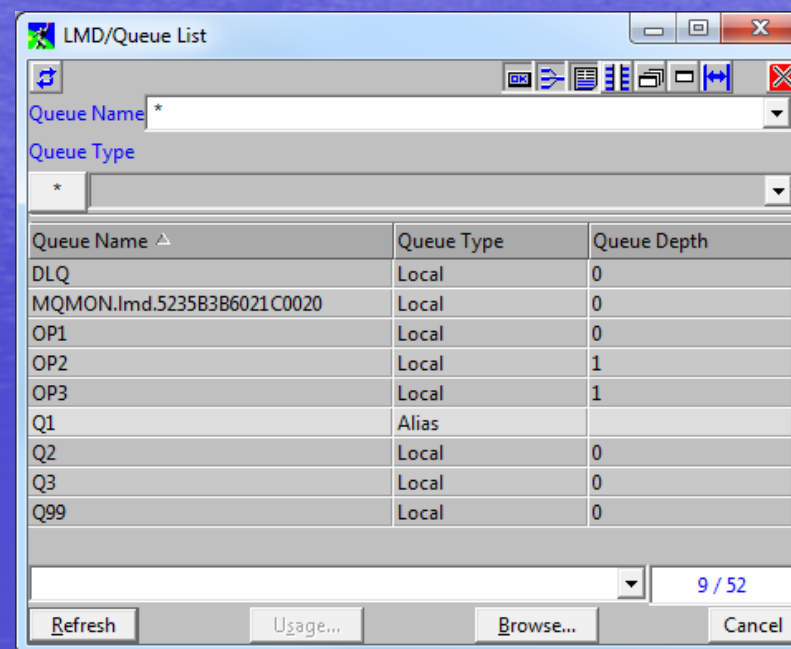

Queue Name	Queue Type	Queue Depth	In	Out
NTPGC1 SYSTEM.ADMIN.STATUS.QUEUE	LOCAL	3000	1	1
NTPGC1 SYSTEM.AUTHDATA.QUEUE	LOCAL	250	1	1
NTPGC1 SYSTEM.AUTHDATA.QUEUE	LOCAL	132	1	1
NTPGC1 HQMON.QUEUE.ADPST000200000	LOCAL	19	0	2
NTPGC1 QP	LOCAL	10	0	0
NTPGC1 SYSTEM.RETAINED.PUL.QUEUE	LOCAL	2	0	0
NTPGC1 SYSTEM.RETAINED.PUL.QUEUE	LOCAL	2	0	0
NTPGC1 SYSTEM.HIBERNATION.STATE	LOCAL	2	0	0
NTPGC1 SYSTEM.HIBERNATION.STATE	LOCAL	2	0	0
NTPGC1 SYSTEM.CLUSTERREPOSITORY.QUEUE	LOCAL	2	1	1

317 / 317

MO71 GUI Administrator

- « The MO71 program is free to download and use.”
- “Although it is free to download and run the program this does not include maintenance and support. For that please buy a support licence.”
- Licence : de 19.99 à 399.99 £.

MessageSight

- Appliance Messaging
 - Support MQTT, MQ Client, PubSub
 - Cible : 13 millions de messages par seconde
- Disponible gratuitement sous forme de VM pour des tests
- PoTs au Technical Exploration Center Paris
 - 18 octobre 2013
 - 21 novembre 2013
 - 12 décembre 2013
- Contact : Joel Gauci - gauci@fr.ibm.com
